

Please don't weaken Wisconsin's "no call list" law. This is one of the few laws that created an immediate substantial improvement in quality of life in Wisconsin the moment it was instituted. It is unfortunate that numbers are automatically removed from the list after 2 years without asking. It would also be better to be able to sign up and not wait so long to get on the list. However, I am a HUGE supporter of this law. Please don't take it away.
